

Airtightness testing: status and trends in competent tester schemes in the UK, Denmark and Belgium

Thursday 14 November 2013

10:00-11:45 (Brussels, BE)

09:00-10:45 (London, UK)

11:00-12:45 (Athens, GR)

REGISTER NOW

FREE – Participation to the Webinar is free

Registration is required: A link to join the webinar will be included in the email confirmation

Over the past few years, there has been an increasing number of airtightness tests performed in Europe either for specific high-performance buildings programmes or for a wide range of buildings in regulatory contexts. This has led to the development of competent tester schemes to contain potential legal and competition issues.

The objective of this webinar is to give information on the status and trends in airtightness testing in the **UK, Denmark and Belgium** including the details and feedback on competent tester schemes.

This webinar is organized with the support of TightVent Europe (www.tightvent.eu) and AIVC (www.aivc.org). Both initiatives are facilitated by INIVE (www.inive.org).

Programme (Brussels time)

10:00 **INTRODUCTION AND CONTEXT OF THE WEBINAR**

Peter Wouters and Rémi Carrié

10:15 **STATUS IN THE UK AND THE AIR TIGHTNESS TESTING & MEASUREMENT ASSOCIATION**

Rob Coxon, ATTMA, United Kingdom

10:35 **Questions and answers**

10:45 **STATUS IN DENMARK AND KLIMASKAERM'S AIRTIGHTNESS ACTIVITIES**

Walter Sebastian, Klimaskaerm, Denmark

11:05 **Questions & Answers**

11:10 **STATUS IN BELGIUM AND THE INAUGURATION OF TIGHTVENT-BELGIUM**

Clarisse Mees, BBRI, Belgium

11:30 **Questions & Answers**

11:45 **End of the webinar**

Cost and registration

Participation to the webinar is free, but requires you to register for the event. The webinar will be limited to a maximum of 200 persons. To register, please click on the “Register now” button above or visit inive.webex.com.

What is a webinar?

A webinar is a conference broadcasted on internet. To follow a webinar you must have a computer with a sound card and speakers or headphones. Once logged in the "conference room", you will be able to see the slides of the presentation and to hear the panellists' comments. You will also be able to ask written questions to the speakers, and to answer on-line surveys.

Hardware, software

Our webinars are powered by WebEx Event Center. The only thing you need is a computer with a sound card and speakers. Before you can log in the "conference room", WebEx will install the required application. If you are not a WebEx user, please visit www.webex.com/login/join-meeting-tips to check the system requirements and join a test meeting. Please also join the event at least 15 minutes in advance.

About TightVent Europe

TightVent Europe (www.tightvent.eu) aims at facilitating exchanges and progress on building and ductwork airtightness issues, including the organisation of conferences and workshops. It fosters experience sharing as well as knowledge production and dissemination on practical issues such as specifications, design, execution, control, etc., taking advantage of the lessons learnt from pioneering work while keeping in mind the need for adequate ventilation.

TightVent Europe has been initiated by INIVE EEIG (International Network for Information on Ventilation and Energy Performance) with at present the financial and/or technical support of the following partners: Aeroseal, Buildings Performance Institute Europe, BlowerDoor GmbH, European Climate Foundation, Eurima, Lindab, Retrotec, Soudal, Tremco illbruck, and Wienerberger.

About AIVC

The AIVC activities are supported by the following countries: Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Italy, Japan, Netherlands, New Zealand, Norway, Poland, Portugal, Republic of Korea, Sweden, USA.

Created in 1979, the Air Infiltration and Ventilation Centre (www.aivc.org) is one of the projects/annexes running under the Energy Conservation in Buildings and Community Systems implementing agreement, within the context of the International Energy Agency. With the support of its member countries as well as key experts and two associations (REHVA, IBPSA, ISIAQ), the AIVC offers industry and research organisations technical support aimed at better understanding the ventilation challenges and optimising energy efficient ventilation.

About INIVE

INIVE EEIG (International Network for Information on Ventilation and Energy Performance) was created in 2001 as a so-called European Economic Interest Grouping. The main reason for founding INIVE was to set up a worldwide acting network of excellence in knowledge gathering and dissemination. At present, INIVE has 11 member organisations (BBRI, CETIAT, CIMNE, CSTB, ERG, ENTPE, IBP-Fraunhofer, SINTEF, NKUA, TMT US and TNO) (www.inive.org)

INIVE is coordinating and/or facilitating various international projects, e.g. the AIVC (www.aivc.org), the European portal on Energy Efficiency (www.buildup.eu), TightVent Europe (www.tightvent.eu), venticool (www.venticool.eu) and Dynastee (www.dynastee.info). INIVE has also coordinated the ASIEPI project (www.asiepi.eu, 01/10/2007 - 31/03/2010) dealing with the evaluation of the implementation and impact of the EU Energy Performance of Buildings Directive.
